2020-2021 Privacy Notice with Essential Services For Parents and Students 14 and Over

Introduction

This notice is to help you understand **how** and why **we** collect your personal information and **what** we do with that information. It also explains the decisions that you can make about your own information.

If you have any questions about this notice please contact office@icsv.at.

What is "personal information"?

Personal information is information that the school holds about you and which identifies you.

This includes information such as your name, date of birth and address, as well as things like exam results, medical details and behavior records. The school may also record your religion or ethnic group. Closed Circuit TV (CCTV), photos and video recordings of you are also personal information.

How and why does the school collect and use personal information?

We set out below examples of the different ways in which we use personal information and where this personal information comes from. The school's primary reason for using your personal information is to provide educational services to you or your child.

- We obtain information about you from admissions forms and from your child's previous school. We may also get information from professionals such as doctors and from local authorities.
- We may have information about any family circumstances which might affect your child's welfare or happiness.
- We need to tell the appropriate teachers if your child is allergic to something or might need extra help with some tasks.
- We may need information about any court orders or criminal petitions which relate to you. This is so that we can safeguard the welfare and wellbeing of your child and the other students at the school.
- We use CCTV at the front door for security reasons.
- Photos may be required for school records or identification purposes.
- Sometimes we use photographs and videos for teaching purposes, for example, to record a drama lesson.
- We may send you information to keep you up to date with what is happening at the school. We use both email and the school's weekly Eagle to provide information about events and activities (including fundraising events).
- We may use information about you if we need this for historical research purposes or for statistical purposes.
- Depending on where your child will go when you leave us, we may need to provide your information to other schools, colleges and universities, or potential employers. For example, we may share information about your exam results and provide references.

- When your child takes examinations (e.g. ACT/SAT) we will need to share information about him/her with the exam company.
- We may monitor your child's use of email, the internet, and mobile electronic devices. This is to verify that your child is using technology as intended during school hours. If you would like more information about this please refer to the Parent-Student Handbook or contact office@icsv.at.
- We monitor student attendance and progress and generate progress reports, report cards, and transcripts.

Financial Information

- We process financial information about you in relation to the payment of fees. In some cases we get information about you from third parties such as credit reference agencies or from your child's previous school(s).

Sharing Personal Information with Third Parties

- Every ICSV student receives a G-Suite Google Account. At the initial log-in they receive the Google Privacy Policy. Emails are only active for students in grades four to twelve.
- In accordance with our legal obligations, we may share information with local authorities, (e.g. Department for Education).
- ICSV uses numerous educational databases, apps, and websites. Your child's name and/or email address may be needed to access these tools.
- On occasion, we may need to share information with the police.
- We may also need to share information with our legal advisors for the purpose of obtaining legal advice.
- Occasionally we may use consultants, experts and other advisors to assist the school in fulfilling its obligations and to help run the school properly. We might need to share your information with them if this is relevant to their work.
- We are required to provide information about all of our students to the Stadtschulrat (Vienna School Board).
- We may share some information with our insurance company, for example, in case there is a serious incident at the school.
- If you have unpaid fees while your child is at the School we may share information about this with other schools or educational establishments to which you intend to send your child.
- If your child leaves us to attend another school we may need to provide that school with information about you that is included in the student file.
- We may share information about you with others in your family, such as another parent or step-parent.
- We may need to share information if there is an emergency, for example, if you are hurt while on school premises.
- We do not sell or rent your information to anyone.

Legal grounds for using your information

This section contains information about the legal basis that we are relying on when handling your information.

Legitimate Interests

The school relies on legitimate interest for processing data. That means that processing is necessary for the purpose of the legitimate interests pursued by the school as controller or by a third party, except where

such interests are overridden by the interests or fundamental rights and the freedoms of the data subject which require protection of personal data.

Specifically, the school has a legitimate interest in:

- Providing educational services to your child;
- Safeguarding and promoting the welfare of your child (and other children);
- Promoting the objects and interests of the school. This includes fundraising. It also includes making sure that we are able to enforce our rights against you, for example, so that we can contact you if unpaid school fees are due;
- Facilitating the efficient operation of the school; and
- Ensuring that all relevant legal obligations of the school are complied with.

In addition, your personal information may be processed for the legitimate interests of others. For example another school will have a legitimate interest in knowing if you have not paid school fees that are due to us. If you object to us using your information where we are relying on our legitimate interests as explained above, please contact office@icsv.at or the office staff directly.

Necessary for a Contract

We will need to use your information in order to perform our obligations under our contract with you. That means that processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract. For example, we need your name and contact details so that we can update you on your child's progress and so that we can contact you for questions or concerns.

Legal Obligation

The school may need to use your information in order to comply with a legal obligation which the school is subject to, for example to report a concern about your wellbeing to Children's Services. We may also have to disclose your information to third parties such as the courts, the local authority, or the police where legally obliged to do so.

Consent

The school relies on your consent for processing data. That means that you have given consent to the processing of your personal data for one or more specific purposes.

Sending information to other countries

We may send your information to other countries where:

- we have to store information on computer servers based overseas; or
- we communicate with you or your child when you are overseas (for example, during the summer vacation if you live in a different country)

The European Commission has produced a list of countries which have adequate data protection rules. The list can be found here:

http://ec.europa.eu/justice/data-protection/international-transfers/adequacy/index_en.htm

If the country that we are sending your information to is not on the list or is not a country within the EEA (which means the European Union, Liechtenstein, Norway and Iceland), then it might not have the same level of protection for personal information as there is in Austria.

For how long do we keep your information?

We keep your information for as long as we need to in order to educate and look after your child (99 years). We will keep some information after your child has left the school, for example, in order to provide a copy of a report or transcript.

In exceptional circumstances we may keep your information for a longer time than usual but we would only do so if we had a good reason and only if we are allowed to do so under the data protection law.

We can keep information about you for a very long time or even indefinitely if we need this for historical, research or statistical purposes.

Where do we store your personal data?

The majority of the personal data we collect will be stored and processed in Austria at our offices and in our data centre(s). We will only transfer data outside of the European Economic Area where it is necessary for us to do so.

Security of processing

To ensure the integrity of data that we are processing locally we are using redundant storage devices that are physically only accessible by a limited number of ICSV employees; use digital restrictions to ensure that ICSV employees only have access to personal data that is required; and using industry standard anti malware applications. Additional offsite backups are being encrypted with secure AES encryption before they get transferred outside our local datacenter. Every ICSV employee has to sign an agreement that states that no personal data should be transferred without proper authorisation.

Data Breach Notifications

In the event of a security breach of Personal Student Information or other confidential information, we notify everyone that is affected as soon as possible in accordance with applicable laws.

Changes to this privacy policy

If we make any major changes to this Privacy Policy we will post details on our website and will notify our primary contact(s) at the school via email. This policy was reviewed and updated in July 2020.

What decisions can you make about your information?

Beginning in May 2018, you will be able to make various decisions about your information. Some of these are new rights while others build on your existing rights. Your rights are as follows:

- If information is incorrect you can ask us to correct it
- You can also ask what information we hold about you and be provided with a copy
- You can ask us to delete the information that we hold about you in certain circumstances if we no longer need the information to provide your child with an education
- You can ask us to send you or another organisation certain types of information about you in a format that can be read by computer

Essential Service Providers and Applications

In order to offer students the latest educational tools we use third party service providers and applications. We currently use the following service providers and applications that are essential to our ability to meet your child's needs as outlined in the contract.
